EGYPTIAN MYSTERIES & INITIATION: *An Immersive Experience*

*Contemplations, Attunements and Conversations
with Peter Mark Adams*

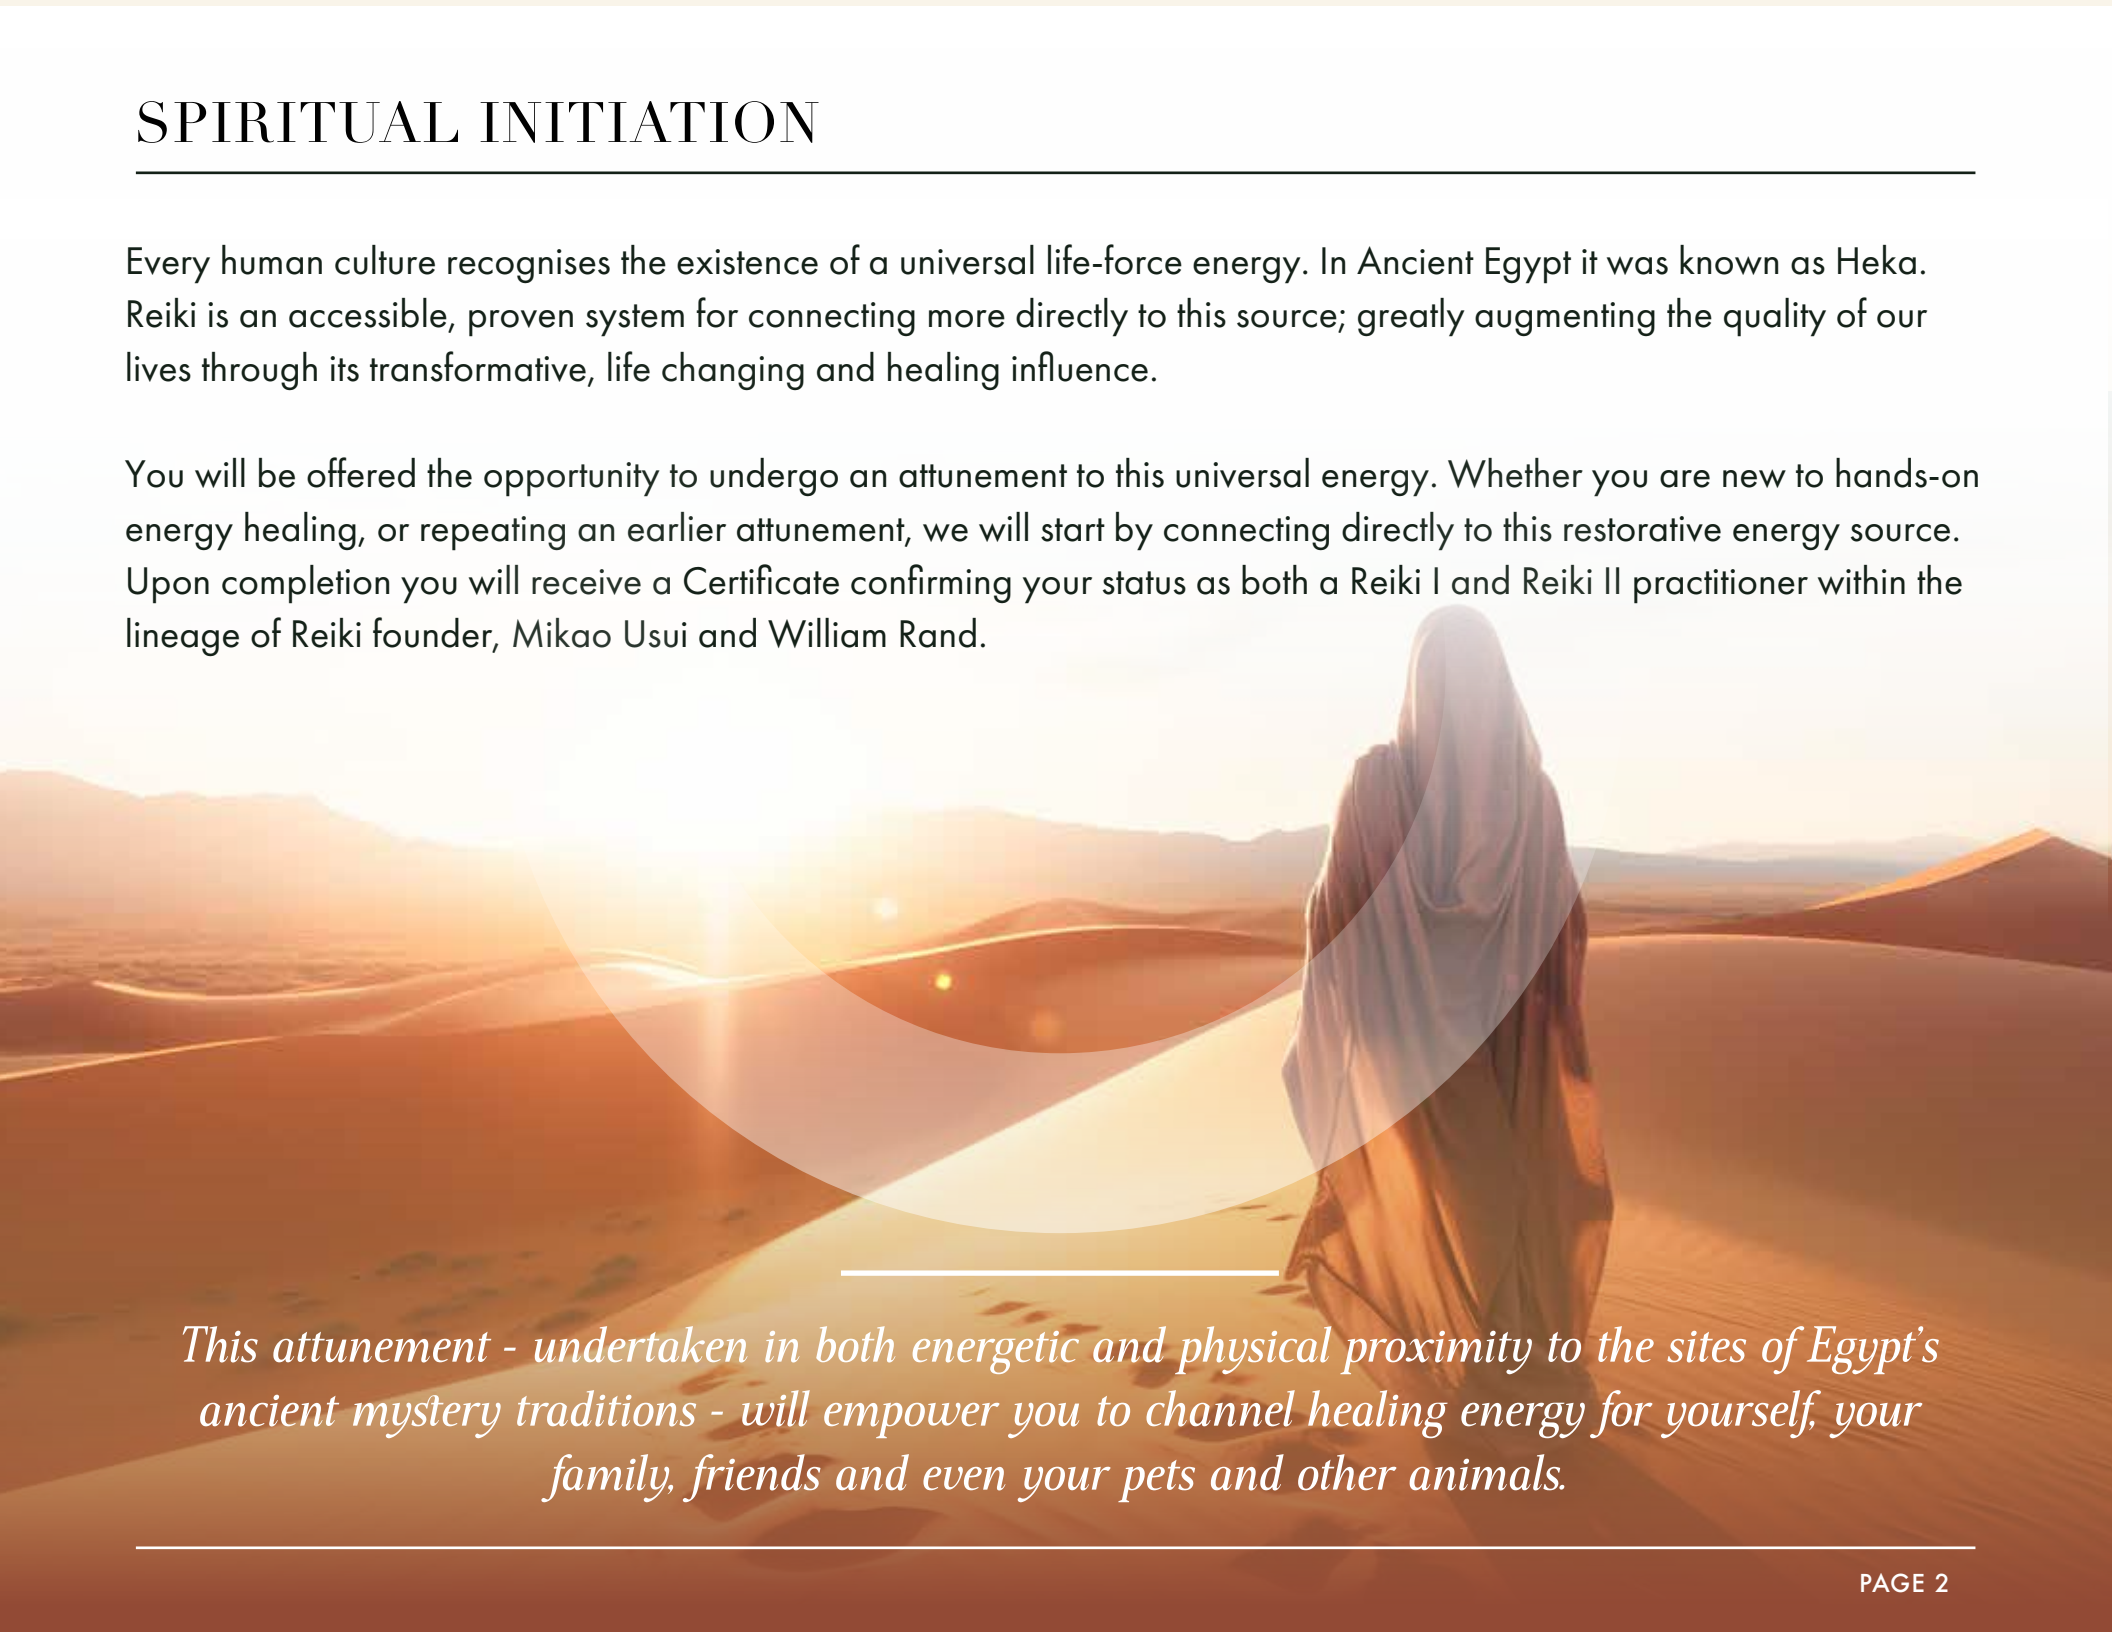

The Egyptian Mysteries & Initiation project has been specifically designed to integrate the experience of spiritual initiation with immersion in some of the most resonant temple spaces of Ancient Egypt; and to provide a clear understanding of the processes employed in Egypt for enacting mystery initiation.

*We invite you to participate in the living story
of humanity's unfolding spiritual evolution.*

SPIRITUAL INITIATION

Every human culture recognises the existence of a universal life-force energy. In Ancient Egypt it was known as Heka. Reiki is an accessible, proven system for connecting more directly to this source; greatly augmenting the quality of our lives through its transformative, life changing and healing influence.

You will be offered the opportunity to undergo an attunement to this universal energy. Whether you are new to hands-on energy healing, or repeating an earlier attunement, we will start by connecting directly to this restorative energy source. Upon completion you will receive a Certificate confirming your status as both a Reiki I and Reiki II practitioner within the lineage of Reiki founder, Mikao Usui and William Rand.

This attunement - undertaken in both energetic and physical proximity to the sites of Egypt's ancient mystery traditions - will empower you to channel healing energy for yourself, your family, friends and even your pets and other animals.

THE TEMPLES OF THE SOUL

As Heka, universal life energy was employed in the great temples to accomplish initiations and healing. These sites are therefore imbued with the initiatory and devotional energies arising from millennia of devoted practice.

You will have private access to the Osireion, the temple of Hathor and Luxor temple as well as sanctuaries dedicated to Sekhmet and Mut that are closed to the public; opening a space for you to profoundly and directly connect with the source of Ancient Egypt's spiritual life. Visits to some of the best preserved, most finely decorated mortuary sites will furnish us with opportunities to study Egyptian initiatory practices at first-hand.

ANCIENT EGYPT'S SPIRITUAL CULTURE

Prior to your private access visits, Peter Mark Adams will frame the site's importance with talks on their spiritual significance; connecting their decorative design with the rituals enacted within them. These discourses will provide an opening for further developing our exchanges on the spiritual dimensions of Egypt's life and culture.

THIS PROGRAM HAS BEEN ESPECIALLY DESIGNED FOR

*seek to understand the meaning and
significance of the ancient mystery traditions
through direct personal experience*

*are motivated to cooperatively engage in raising
the general level of spiritual awareness*

*seek a more profound level of healing both for
themselves and their community*
